Poland: Exploring the tension between democratic pluralism and nationalistic exclusion of the "Other"

- Folk cultures
- Catholicism/Nationalism
- Immigration/Ukraine
- Past/Present religious minorities
- Gender/LGBTQ issues
- Holocaust era sites
- Individual/group reflection; curriculum development

GPA Objectives: Poland

- 1) Gaining Firsthand Knowledge**
 These in-situ experiential opportunities increase firsthand knowledge and understanding of Polish history, culture and language, historical roots of current political forces in Poland, the impact of present politics on various minority groups, immigration policies and intergroup attitudes, and opportunities and challenges brought by immigration with specific discussion of displaced Ukrainian people and middle-eastern people arriving via Belarus.
- 2) Increasing Access to Curricula Focused on Poland, Ukraine and the Holocaust**
 The GPA program will increase, strengthen, and diversify coverage of Polish issues, including the effects of Ukrainian immigration and coverage of the Holocaust, in Ohio public schools and at Wittenberg University by increasing the number of Wittenberg faculty and Ohio high school teachers with expertise in these issues and the number of curricular projects educators will have available to integrate into existing or new courses.
- 3) Dissemination of Knowledge and Materials**
 Participants will disseminate knowledge and materials generated from the GPA by developing new curricular projects appropriate for each group of project participants (pre-teachers, high school teachers, and college faculty).
